Subject: Uber in SC

The recent move to ban Uber services in SC is both senseless and irresponsible. As a native South Carolinian who flies back home to Charleston weekly, Uber has been the most impactful service company to arrive in the state in years. The number of individuals who qualify as uber drivers are limited due to extensive screening, but those that do are able to make a decent income in an economy that has left people struggling. The notion of banning such services should neither be decided by you nor supported by you. This is a clear infringement on the rights of people both domiciled in and visiting South Carolina.

I have never complained to government officials over their decisions involving safety and the concerns of the public, however, I will be reaching out to every government representative possible to voice my disgust with your move to prohibit Uber's services. I could go on for days documenting the positive change that Uber's services have had on our state and country, while your report cites useless and baseless negativity that is neither defensible or rationale.

Please keep Uber in Charleston!

They by far exceed any kind of service, professionalism, technology, accountability, reliability, easy of transaction that Yellow Cab could ever dream of offering!!!

Oh and most importantly they provide their incredible service for a fraction of what yellow cab charges!

No brainer!

Please do not take away Charleston's upward growth and maturity as a city!

Thank you, Lee Curtis

Subject: Uber in SC #SCneedsUber

It is imperative that Uber be allowed to operate in South Carolina. It is by far the best form of transportation for getting home late at night and is extremely safe. Having to pay over \$60 for a regular cab from the airport to Mt Pleasant is absurd (FYI it is \$40 from lower Manhattan to LGA). Reinstate Uber's business license and make transportation easier in Charleston!

Have a great day!

Kellen Thayer

To Whom It May Concern,

Outlawing Uber is akin to supporting drunk driving. Do not make that mistake.
